

Supply List for Scrappy Trip Around the World

Basic Skills Class

Sewing machine and power cord

Personal Light (if needed)

Thread, extra bobbins

1/4" foot if you have one

Scissors or snips

Rotary Cutter and mat

Ruler, 6" by 24" is best

Seam ripper

Pins or clips

We will supply irons and ironing boards

Fabric strips cut into 2 1/2" by 16" strips to make at least 4 blocks (6 strips needed for each block). The scrappier your fabric, the more fun you will have! Additional fabric is needed to make a completed quilt; however, we hope to get at least 4 blocks completed in class.

A NOTE REGARDING FABRIC:

This class is based on several tutorials that can be found on the internet called "Scrappy Trip Around the World". The pattern we will be showing calls for six 2 1/2" strips at least 16" long in contrasting colors. This will make one 12" block.

The block and quilt can be a totally scrappy quilt or a "planned scrappy quilt," meaning the quilt can have a planned color layout with a focus fabric in each block or you can let it be scrappy with very little planning.

We recommend some Pinterest surfing of Scrappy Trip Around the World quilts to see examples of layouts.

The amount of fabric you will need depends on the size of your final quilt. For reference, six fat quarters will make eight 12" blocks, using 2 1/2 strips.

If you have a large stash of 2" or 3" strips and would prefer to use these, they can be used instead. The final block size will be different, but the technique is the same.
