MQSC Block of the Month

Due whenever we meet again

Ice Cream Cone Applique

Nothing says summer like an ice cream cone! For this block, you may use your favorite applique method. The pattern is drawn for fusible methods, so if you are sewing by hand, you will need to add a seam allowance. Please use a pale blue (solid or tonal) for the background. Select a golden-brown fabric from your stash for the cone. The ice cream scoop(s) can be any “flavor” you like. Please feel free to embellish with “sprinkles”.

Cutting Instructions:

Pale Blue Background: Cut one 10 1/2" square.

Cone Fabric: Cut one cone using the attached pattern.

Ice Cream Scoop Fabric: Cut one scoop using attached pattern. Add multiple scoops, if you wish.

Assembling the Block:

The finished ice cream cone should be centered in the blue square. If you do more than one scoop of ice cream, you may need to adjust your placement. We suggest laying it out before you actually fuse or sew the pieces.
