

MQSC Block of the Month

Due: August 19, 2015

Finished Size: 10"

Ice Cream Cone Applique

Nothing says, “summer”, like an ice cream cone! For this block, you may use your favorite appliqué method. The pattern is drawn for fusible methods, so if you are sewing by hand, you will need to add seam allowance. Please use a pale blue (solid or tonal) for the background. We have provided a 5” square of the cone fabric. Two cones can be cut from each 5” square. The ice cream scoop(s) can be any “flavor” you like. Please feel free to embellish with “sprinkles”.

Cutting Instructions:

Pale Blue Background: Cut one 10 ½” square

Cone Fabric: Cut one cone using attached pattern.

Ice Cream Scoop: Cut one scoop using attached pattern. Add multiple scoops, if you wish.

Assembling the Block:

The finished ice cream cone should be centered in the blue square. If you do more than one scoop of ice cream, you may need to adjust your placement. We suggest laying it out first before you actually fuse or sew the pieces.

If you would like to make more than two blocks, the cone fabric can be purchased at Beverly’s in Santa Rosa. It is called 1365 Landscape Wavy Texture @ The Henley Studio Makower UK.

Call us if you any questions.

Have a great summer!

Cindy Chadwick, 584-9658

Denise Morehead, 585-1822

Pattern pieces are drawn to the finished size for fusible applique. If doing hand applique, you will need to add seam allowance.
