

MQSC BOM August 2021

Folded Pinwheel

8 1/2" finished square

In person meeting??? or drop off at Village by 8/2 or Bolt by 7/30 for Zoom

This is super fun and takes a few minutes!!!!

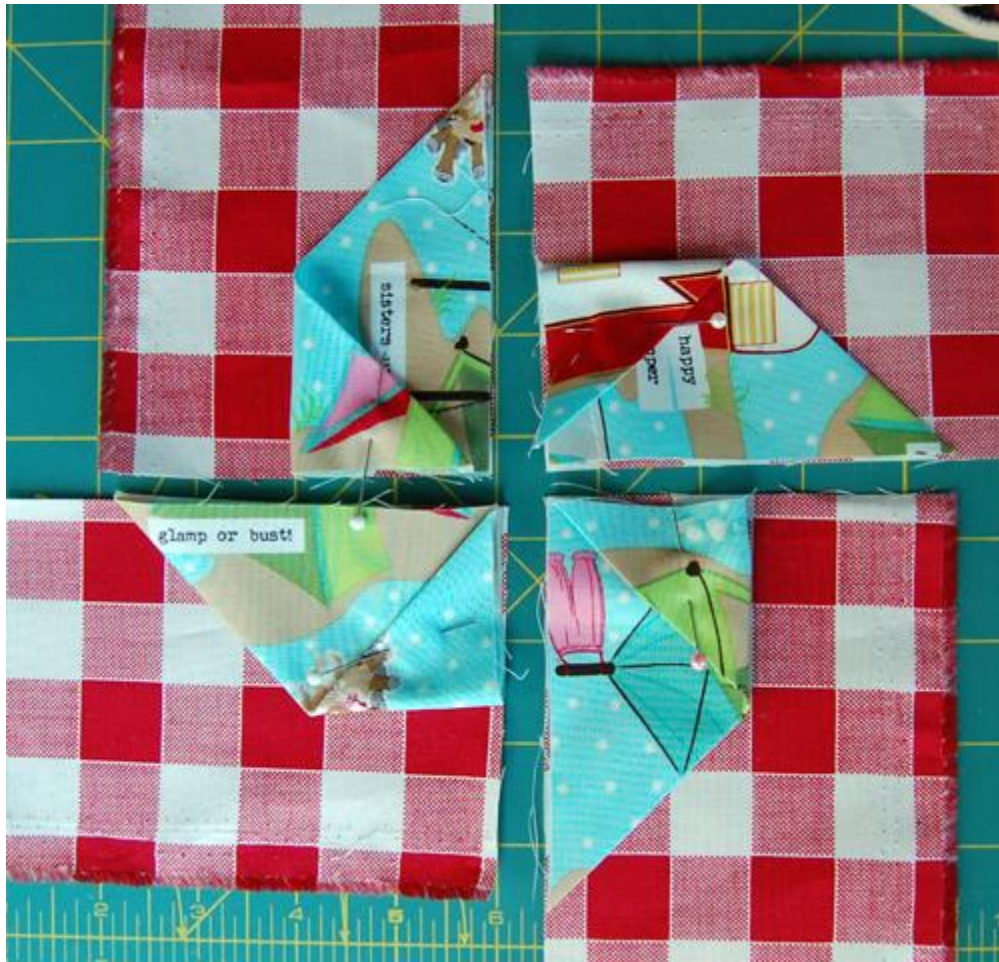

For each pinwheel, you will need four 4" squares. Iron each diagonally Once

Once all four pieces are pressed, fold again as pictured below, without pressing:

Make sure that each piece is folded the same direction to make the super cool pinwheel design. Now you can add it to your background fabric pieces. I used $4\frac{3}{4}$ " squares to clear the tips

Glue, pin, or stitch each raw edge in place. Assemble four-patch as normal. Press the background and through the middle seams, but try not to press the pinwheel fold. This will make it pop up and look three dimensional. (after the first one, I didn't need to stitch first, I just stitched the square all together)

Fluff up the pinwheels.
